Job Description

Join 2x2 Consulting as a Senior Business Systems Analyst supporting the Office of Technology and Compliance (OTC) in the State of Indiana's Department of Health (IDOH). This long-term position involves providing senior-level business system analysis, support, and quality assurance for the LTAC program within IDOH. The role includes evaluating business processes, identifying areas for improvement, developing and implementing solutions, and ensuring solutions meet business needs and requirements. Collaboration with the QAMIS (Quality Assurance Management Information System) development team is crucial.

Responsibilities

- Evaluate business processes, anticipate requirements, and develop/implement solutions.
- Review functional processes and develop optimization plans using technology.
- Perform requirements analysis and communicate results to the QAMIS team and program team.
- Ensure solutions meet business needs and perform user acceptance testing.
- Prioritize initiatives based on business needs, serve as a liaison between stakeholders and users.
- Monitor deliverables and ensure timely project completion.
- Provide support to the QAMIS development team for business requirements.

Requirements & Experience

- Bachelor's degree in a related field.
- 6+ years of experience in business analysis or a related field.
- Proficient understanding of business strategy and planning principles.
- Experience with systems engineering methodologies.
- Strong analytical and data analysis skills.
- Effective communication within program teams.
- Experience in project management and deployment coordination.
- Familiarity with government-mandated policy changes and additions.
