Job Description

2x2 Consulting is seeking a Machine Learning Specialist for AI Insights. Leverage your expertise in machine learning and artificial intelligence to extract actionable insights from large datasets. Drive data-driven decision-making across the organization by designing, developing, and implementing machine learning models. This role offers a chance to work on cutting-edge projects, contribute to organizational goals, and be a key player in the field.

Responsibilities
• Extract actionable insights from large datasets through preprocessing and analysis.
• Design, develop, and implement machine learning models and algorithms.
• Utilize AI techniques to solve complex business problems.
• Evaluate model performance using appropriate metrics and optimize for accuracy and efficiency.
• Integrate machine learning models into existing systems and applications.
• Collaborate with cross-functional teams to understand business requirements.
• Document work and contribute to the internal knowledge base.

Benefits
• Unlimited PTO, Life Insurance, Short-term and Long-term Disability.
• Maternity and Paternity Leave, Healthcare Insurance.
• Continuous Learning Allowance, Community Service Allowance.
• Hybrid/Remote Work, Flexible Schedule.

Education & Experience

• Bachelor's degree in Statistics, Mathematics, or related field.
• Proven experience as a Data Scientist with a focus on AI and ML.
• Technical proficiency in relational databases, SQL, and machine learning modeling techniques.
• Familiarity with cloud computing platforms (e.g., AWS, Azure).
• Strong problem-solving skills and ability to work in a fast-paced, collaborative environment.

Must Have

Educational Requirements

Bachelor's degree in Data Science, Computer Science, or related field.
