Job Description

2x2 Consulting is on the lookout for a dynamic Software Engineer who thrives on solving tough challenges. We're seeking an explorer with insatiable curiosity, adaptability to different domains, and a passion for pushing personal boundaries. Engage in writing high-performance, maintainable code, collaborate with internal teams, and translate customer insights into software solutions. If you're ready for an exciting journey where innovation knows no limits, we're eager to meet you.

Requirements
• Degree in Computer Science or a related field.
• Very strong skills in a programming language.
• Effective communication, both written and verbal.
• Willingness and motivation to learn new skills.

Tools You'll Use
• Django + Python3
• React + NodeJS
• PostgresSQL
• AWS + Terraform
• Git

What We Offer
• Competitive salary and equity.
• Ownership culture fostering innovation.
• Comprehensive medical, dental, vision.
• Unlimited PTO and sick days.
• Flexible working hours.
• Fast-paced environment for professional growth.
• Opportunities to move roles within the organization.
